- **Goals**

- Reentry and Alternatives to Incarceration Performance Measures (*see slides for more information*).
- Behavioral Health Performance Measures (*see slides for more information*)
 - Recommendations:
 - Add in measures specific to individuals in programming who have relapsed or tested positive during the performance period
 - The final report includes a summary of the whole performance period since they are sent quarterly
- Victim Services - AIP (*see slides for more information*)
 - Could this fall under alternative to incarceration? Victim Services Coordinators added a few measures specific to AIP.
- Victim Services - Other (*see slides for more information*)
 - Please note this is a unique category because it may be specific only to a few grantees.

- **Priorities** (*See slides for more information*)

- Additional 2 points during scoring to grantees whose programs fall under these categories:
 - Incarcerated women
 - Incarcerated LGBTQ+ individuals
 - Incarcerated parents
 - Justice-involved individuals in need of behavioral health programming
 - Rural communities
 - Victims of crime and restitution enhancements
 - Please note this is because 5% of the PIGF funds have to go to these areas and this has not been met in the past
- Potential addition to priorities:
 - Under victims, add in families of individuals who committed a public crime and are incarcerated.

- **Performance Measures**

- Look to the commission for feedback of the performance measures
